Lay Flat Paper
to be used in your own printer

1 packet of A4
Landscape paper -
250 sheets

£55.00 (+VAT)

Pouch Covers

The simplest solution for hard cover personalisation. Print a sheet; Slide it into the pouch; Run the cover through a Coverator / laminator.

Pouch Cover

Atlas 300 mono

A professional binding machine which binds & debinds documents up to 300 sheets (600 pages) of 80gsm paper.

£595

Used to bind A5, A4 & A3 landscape documents.

Perfect for producing thesis books, photobooks & much more.

Option to purchase an ImagePress Foiling Head so that you can add traditional foiling to your cover.

dimensions: w 522mm x d 256mm x h 310mm
weight: 16kg

Coverator 330

A uniquely designed laminating machine to take the thickness of a PouchCover.

£595

Print a design for your front cover

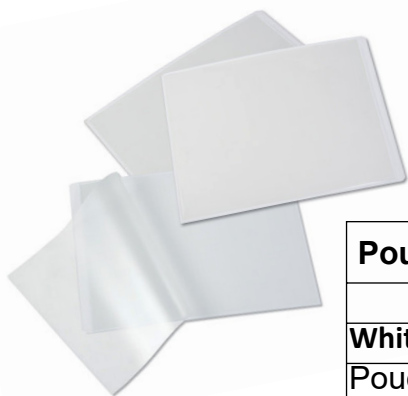

Slide your printed sheet into the Pouchcover

Put the cover through the Coverator (sealed edge first!). Bind with MetalBind or WireBind to produce a book to your own design.

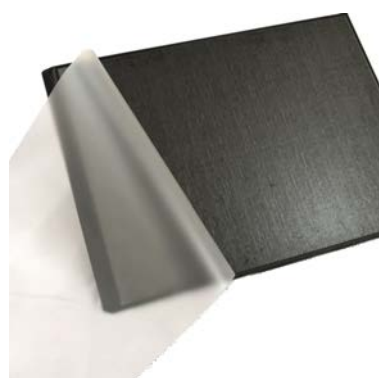

dimensions: w 525mm x d 281mm x h 122mm
weight: 10kg

The perfect mid-range manual hot foiling machine

OPUS Manual Masterpress 02

The Opus Masterpress 02 is the perfect mid-range foiling solution.

This new model is compact, lighter & ergonomically designed to be more comfortable to use.

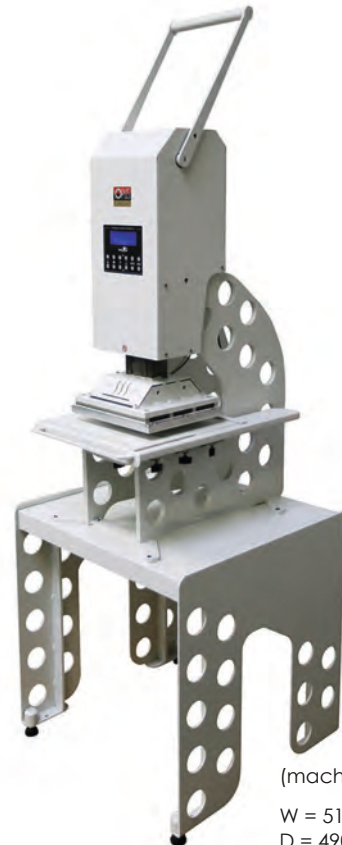

Increased height between the table & the heater gives more flexibility & ease of operation.

The re-designed handle allows for right or left-handed use.

Square heater head - 20 x 20 cm - allows access from side or front, making foil set-up much easier & faster.

Slide out table enables easier positioning of small items - eg. business cards - more accuracy = less waste.

Compatible with all Goldpress 5 matrixes & accessories.

(machine & stand)

A vertical machine hot foiling up to A4 size

OPUS Electric Masterpress

Traditional foiling made easy

The Opus Electric Masterpress is a vertical foil blocking machine with an A4 heat block area.

It can be used with Magnesium, Brass or Copper foiling dies which can be attached with heat tape or screw bunter posts.

The Masterpress is perfect for foiling on case covers, books, card and much more.

The Masterpress can also be used with Opus brass letters for easy typesetting perfect for names, titles, thesis books, year books, photo books and more.

The electronic display shows adjustable temperature (50 to 150°C), dwell time, pressure, foil length, height control and a counter. With up to 5 tons of pressure, this foiling machine is a versatile option for small print firms new to foiling, or a short run vertical print option for the experienced foiling company with larger machines.

W = 550mm;
D = 551mm;

Discover Foiling

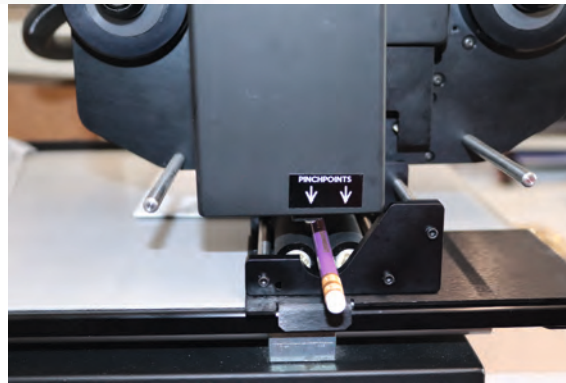

A range of Digital foilers - no blocks or stamps required

Foil Direct AP

FoilXpress AP (auto-position) Machine

Foiling pencils on the Cyclone Model

Digital Foiling

Foil Direct AP, Foil Xpress AP and Cyclone Models

The latest generation Auto Positioning Foil Xpress models are fast and easy.

The new entry level Foil Direct is compact and lighter in weight without compromising the end high quality foiling result.

The Foil Xpress AP is the universal model, allowing foiling on surfaces up to 25mm thick.

The Cyclone model allows foiling on cylindrical items such as pens, pencils and markers as well as flat surfaces.

Digital foiling is great for personalisation and an alternative to traditional foiling as there are no fonts or foiling blocks involved.

Print multiple passes on hard & soft covers to produce customised thesis books, corporate reports, photo albums and more.

Other applications include: greetings cards, invitations, diaries & notebooks.

Digital foiling works well on smooth surfaces but we always recommend testing your materials before purchasing a machine.
